

told us a short time since, that when a child
 he was glad to receive the cold potatoes
 from his mother, and to eat good, say
 and if you see that you will be satisfied
 of your mother's love, you must be satisfied
 a rich man and were addicted to bad habits.

[illegible]

conservative and
inroads in the medical art have
been tried. It has proved absolutely cer-
tain that the collection of symptoms in
D. Dobility, Nervous Affections, e.
Dyspepsia, Constipation, Diarrhea,
entry, Injunct Consumption, S.
Tuberculosis, Salt Rheum, Miasmatic
W. Thalas, Chlorosis, Liver Complaints,
Headaches, Rheumatism, Liver
Pneumonia on the Face, etc.

own neighborhoods, have suddenly returned in the busy world as if they had never protracted travel in a distant land. Some signal instances of this kind are attested in male Sufferers, emaciated victims of apoplexism, sanguineous exhaustion, changes, and that complication of nervous debility, and of the exercise for which the physicaian has no name.

IN NERVOUS AFFECTIONS of all kinds, the renous familiar to medical men, the opportunity of this preparation of Iron must necessarily be salutary, for, unlike the old orders, it is a purely tonic, without being exciting and heating; and gently, regularly applied, it is the best means of restoring the system, even over being gastric purgative, or laxative, and is a discreetly signification.

It is this latter property, among others, which makes it so remarkably effective and powerful a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by perspiring the local tendency which forms the basis of the disease, and thus, as we have seen, a single box of these "Cholagogue Pills" has sufficed for the most habitual cases, increasing the attendant Costiveness.

In unchecked Diarrhoea, even when added to DYSPEPSIA, confirmed, emaciating, a purely malignant, the effects have been found by decisive and astonishing.

These paths, loss of flesh and skin, debilitation of the system, and violent heaves, generally indicate *Ischyria Cystica* or *Sexuaria*, and remedy has allayed the alarm of friends and physicians, in several very gratifying cases.

fering instances.

IN SCURVYOUS TUBERCULOSIS, this remedy has had far more than the good of the most cautiously balanced preparation, without any of the harm well known to the world.

The attention of females cannot be so gently invited to this remedy and reason in the cases, peculiarly affecting them.

IN RHEUMATISM, both chronic and intermittent—in the latter, however, more decided it has been invariably well reported, but alleviating pain and reducing the swelling are the objects of its use.

IN INTERMITTENT FEVERS it must needs be a great remedy and energetic restorative and its progress in the new settlements of the West, will probably be one of high renown.

No remedy has ever been discovered
 whole history of medicine, which exerts
 prompt, happy, and fully restorative ef-
 fect on appetite, complete digestion, re-
 gain of strength, with an unusual di-
 tion for active and cheerful exercise, in-
 ately follow its use.

Put up in neat flat metal boxes contain-
 ing 50 pills, price 50 cents per box; for
 druggists and dealers. Will be sent free
 on receipt of the name of the patient and
 address, etc., should be addressed to

Prof. L. Miller's
HAIR INVIGORATOR.—An Effective

H and Economical Compound.

FOR RESTORING GRAY HAIR to its natural color without dyeing, and preventing loss from turning gray.

FOR PREVENTING BALDNESS, and restoring the natural growth of hair, and recovering the color remaining.

FOR REMOVING SCURF AND DAND, and all untoward affections of the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequalled gloss and brilliancy. It is soft and silky in its texture and cascades curl readily.

It is the favorite of the celebrated and the increased demand for this unequalled preparation, compels the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at sale.

in use. It cleanses the head and scalp of dandruff and other cutaneous diseases, the hair to grow luxuriantly, and gives it a rich, glossy and flexible appearance. It will give strength and vigor to the hair and restore the growth to those parts which have become bald, causing it to yield a covering of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of the Investigator, when all preparations of the kind have failed. We have the letters innumerable testifying about facts, from persons of the highest respectability. It will effectually prevent hair from turning gray until the latest day of life; and in cases where the hair has

changed its color, the use of the Invigorator will with certainty restore it to its original color, giving it a dark, glossy appearance. A hairbrush, particularly recommended, having an agreeable fragrance; and the great facilities it affords in dressing the hair, which, when moist with the Invigorator can be dressed in any required position as to preserve its place, whether plaited, curled—hence the great demand for this hairdressing article as a standard toilet article while the usual price of the price paid for the product within the reach of all, being

ONLY TWENTY-FIVE CENTS PER BOTTLE, to be had at all respectable druggists and perfumers.

L. MILLER, would call the attention of merchants and Guardians to the use of his hairdressing

ator, in cases where the children's hair is
the use of it does not hurt the scalp,
for a good head of hair, as it remains
scalp that may have become congested
the removal of which is necessary
both for the health of the child, and the
appearance of its hair.

THE LITTLE GIRL AT PRAYER.

One eve when the moon was shining bright,
And the stars were glittering all,
I went to the humble cottage-house
Of little Catherine Hall.

I opened the door of this lonely house,
Not an inmate could I see;
But I heard an earnest, pleading voice,
In a tone of agony.

I followed the sound to a cheerless room,
And stopped; for, kneeling there,
With folded hands, on the cold hearth stone,
Was a little girl at prayer!

I went that night to a festive hall
Where the scene was gay and bright,
And every lip in smiles was wreathed,
And every heart seemed light.

The room was filled with fairy forms,
Not an inmate could I see;
They bade me merrily, but my heart was away
With the little girl at prayer.

Fair fingers swept the light-toned harp,
And many a rare old song
Was sung, and many a gleeful note
Burst from that joyous throng.

Fresh flowers were scattered all around,
Then perfume filled the air;
But the lovely sight that I saw that night
Was the little girl at prayer.

Miscellaneous.

The Holidays.

The golden light of the sun, the subdued light and warmth of the sun, the fleecy clouds that drift fitfully across the firmament, and the sharp, frosty breath that tingles on the cheek, are the elements of the holiday season. Already the merry youngsters are looking ahead and anticipating the pleasures that will crown the festive Christmas season, and the "Happy New Year." And their joy is to be envied indeed. Well do we remember, when a light-hearted, careless boy, before life had put on its realities, how he went to the celebration of our spirits in the exclamation: "Only three weeks to Christmas!" And we remember too, with what anxiety we retired to bed the night before, to dream of good St. Nick, and to awake in the morning, happier in the possession of a pocketful of cakes, than the man who can count his dollars by the million, or his own, the soul as far as his eyes can see. This is the happy end of human life—the time that once passed never comes again. Every one can stop and be benefited by going back in memory to that sunny morning in life, and with the noisy world of business barred from his mind, live over one Christmas season as it was in childhood. It is like sitting under the willows on a sunny day, it is like the home with a window, like it is, and opens up with the key of memory, the warm and beautiful, but dimly lighted chambers of a past and better existence.

Welcome, then, the happy holidays. Be glad and be cheerful with the little ones, and indulge the spell that takes you back along the vista of almost forgotten years, and makes you realize and enjoy the festive Christmas season, even as it is enjoyed by them.—*Fulton Republican.*

A Novel Case at Law.

Mr. Church, of Montville, Conn., owned a hen. The hen took a notion to set; Mr. Church encouraged her in it to the extent of giving her sixteen eggs to commence on. With commendable industry the hen went to work, "setting." For one week she devoted her time to the incubation of the eggs. At the end of the week Mr. Church's hen came along that way, and crowding the hen off her nest, took the business of incubation under her own wings. Being more "on her muscle" than the hen, she maintained her position until a brood of chickens stepped out of the shell and peeped. The turkey then took the chickens in tow, and returned to her own home. Mr. Church's hen, Mr. Church brought an action of trover for the chickens, claiming them on the ground that his hen laid the eggs and did the best part of the setting. The case was tried on Saturday, and judgment was given for plaintiff to recover eight cents per piece for the chickens.

The Estate of Stephen Girard.

A bill has been filed in the United States Court at Philadelphia by parties who are subjects of the French Emperor, for the recovery of all the Girard estates, except that which is necessary for the maintenance of the college. The bill, says the Ledger, fills forty-nine closely printed pages, and will commence perhaps a long course of litigation. The grounds on which the recovery is based are: 1st, that the present city of Philadelphia cannot legally execute the provisions of Stephen Girard's will; and 2d, the estate, by reason of mismanagement, has diminished in extent, referring to the loss of the Louisiana lands and the non-productiveness of those in Kentucky.

Tanagers of the Diphtheria at the West.

We find in many of our Ohio and Indiana exchanges accounts of the ravages of diphtheria, or putrid sore throat. Adults and children fall victims to it. The Holmes County (Ohio) Farmer says it is raging to a fearful extent in the eastern townships of that county. A great many persons have died from it. The Greenville (Ohio) Gazette says that within ten days Mr. Wm. Harper of Porter township, has lost five children with diphtheria, the eldest a daughter of 17 years. The balance of his family, three children, are sick with the same disease. The Anglaise Democrat says the diphtheria still continues its terrible attacks upon the citizens of Wapakoneta and vicinity. During the summer the victims were mostly children, but grown persons are now beginning to fall victims to its dreadful ravages. In Northern Indiana the malady has been very fatal.

Extensive Voting.

In looking over returns of the election in Iowa, we notice that three counties gave twelve votes each. Sioux county, recorded nine votes for Douglas, two for Lincoln and one for Bell. Cherokee county gave Lincoln nine and Douglas three. Buena Vista gave Douglas six and Lincoln six. In eight counties the whole vote amounted to 203.

Said a certain individual to a wag.

The man who has raised a cabbage-head has done more good than all the metaphysicians in the world. "Then," replied the wag, "your mother ought to have the premium."

Heroic Conduct of the Pope's Irish Brigade at Spoleto.

[Correspondence of the Dublin News.]

There cannot have been much more than 700 or 800 men, if so many, in Spoleto, while the attacking force was at least 15,000 or 20,000 men. A council was held, and of course, instantaneous surrender was proposed by some of the most military course in the face of such odds. O'Reilly, least forthright in the garrison (two companies, 250 men), utterly declined to be a party to any such proceeding, and declared that the men who would take upon himself to even announce such a step to his men would run the peril of his life. The council, I can gather, was violently distracted, and the point of capitulation or no capitulation, was ultimately an express was sent off to Rome, to inform the government, announcing that it was resolved to defend the town as best they could, and that some what might the Irish companies were resolved to hold the citadel till the courier returned, or blow it into fragments.

In the morning the Irish, at dawn, went to mass and I believe every individual man among them approached Holy Communion. In an hour or two afterwards they were called upon to meet the foe. The Saragatians poured in through two of the chief streets, attempting at first nothing of a cannonade, and evidently confident of carrying the place without much trouble. The Irish, however, in an hour or two, were held at bay. Little by little, of course, could be done in the street by such a small body against 10,000 or 12,000 men, and at last, pressed on every point, O'Reilly thrust himself into the citadel to make the last stand for life or death—for death, at least, might as well be met on the outer gate as in the street. The wounded and the dead were piled up in the street, and the range, there was not a man in all the little band who did not feel that he had taken his stand to die. They threw themselves upon the walls, and from the tattered loopholes rained "the leaden hail" with deadly effect upon the besiegers. But those old walls, now of miserable defenses, and the enemy, after a brief but deadly struggle, dashed at the old gate, with cries that rent the air, and a petard blew it into fragments. Then the struggle commenced indeed. In the midst of the besiegers into the citadel, which I should mention does not appear to belong to the citadel proper. However, a bloody reception was given to the Irish. The Irish had two or three men killed, and the enemy, in a position commanding the entrance, and a corner was the Piedmontese column seen through the smoke of the gateway than a murderous fire was opened, moving them down literally like corn before the sickle. Again, again, the besiegers dashed into the citadel, again, again, and again a perfect hail of shot and shell from the pieces in the yard, and from the loopholes in the walls behind them, met them from the Irish side, while shouts that would stir many a heart at home, in Ireland, plainly told that the brave fellows felt too well the honor of Ireland was on the awful stake or the sword. It was mid-day, the outer yard was still unscathed, and the citadel itself seemed untouched, but all this was not to last much longer. The Piedmontese brought up a piece or two to themselves, and after the first discharge poured on us through the gate. My informant asserted that of the heroic Irishmen who fought those guns inside not one man escaped.

Subsequently O'Reilly and his men after

further desperate resistance, surrendered themselves as prisoners of war.

Review of Fugitive Slaves.—The Chicago

Times says that about forty negroes of that city have organized a military company under the name of "Freedom Guards." One of the objects of their organization is to rescue fugitives from the hands of government officers whenever any such shall be captured.

Practical Imagination in Ohio.—Miss Geo-

gettie Tucker, a highly accomplished white girl, a graduate of Oberlin College, Ohio, who had been lecturing on literary subjects, and had been in the State of Michigan, where they were married, to the infinite disgust of the girl's father, who is said to be nearly crazy from this reduction of principles to practice.

A Good Reply.—An Irish carriage-driver

made a very happy and characteristic reply the other day, when a gentleman had replied to Pat's "Want a carriage, sir?" by saying, "No, I am able to walk." When Pat rejoined, "May your honor long be able, but seldom willing."

How to Kiss.—For a man with haste,

around the waist, and hug her tight to his chest, and then she'll say, "do go away—do, won't you let me be?" Then, oh, what bliss! but never miss so good a chance as that; then make a dash as quick as flash, and—Hurry, hold my hat!

Dried Apple Pie.—Cover your apples with

water and sugar, and let them simmer for an hour, and then stir them in the same water, stirring them often until done; beat them up fine, and add sugar to suit the taste, a little butter and essence of lemon. It will then be ready for your pie dishes. If your apples are good and tart, and your pies are not good made in this way, please write and let us know.

For Conversion.—Hon. A. H. Dawson,

who converted Georgia in behalf of Bell and Everett, writes to the Charleston Mercury in favor of secession, and advocates separate State action. He thinks if South Carolina will go out first, it will largely increase the secession vote in Georgia and Alabama.

A Lady who had read of the extensive

manufacture of opium, to tell how far a carriage had been run, said she wished some Connecticut genius would invent an instrument to tell how far husbands had been in the evening, when they "just stepped down to the post office," or went out to attend a caucus.

Black Currants make an excellent

preservative, good for colds and sore throat. They do not take much sugar, and will keep perfectly.

It has been discovered that the iron

smiths' anvils are the best "fertilizer" for peach trees. A shovelful placed around the root of a tree, will give it abundant nutriment for a season.

Tommy, my son, run into the store

and get some sugar.

Wife versus Lady.

It is certainly not in good taste for a gentleman to speak of his wife as his lady, or to register their names upon the books of a hotel as "John Smith and lady," or to ask a friend, "How is your lady?" This is all fashionable vulgarity, and invariably betrays a lack of cultivation. The term wife is far more beautiful and appropriate and refined, whatever may be said to the contrary. Suppose a lady were to say, instead of "my husband," "my gentleman," or suppose we were to speak of "Mrs. Fitz Maurice and her gentleman." The thing would be positively ludicrous, and its obverse is none the less so, if rightly considered. A man's wife is his wife, and not his lady. We marvel that this latter term is not utterly tabooed, in such a connection, at least by educated and intelligent people. It ought to be left for the exclusive use of the cod-fish aristocracy.

Many a glorious speculation has failed

of the same good reason, that the old American Rangoon gave when he was asked why he didn't buy land when it was dog cheap. A correspondent tells the story: "Well, I did come night upon taking eight thousand acres out," said old Joe, "one day from an Indian hunt without any money. I was offered the land for two leagues just below here for a pair of boots." "For a pair of boots?" cried out. "Yes, for a pair of boots for each league," said Joe.

But why on earth didn't you take it?

They would be worth one hundred thousand dollars to-day. Why didn't you give them the boots?"

Just cause I didn't have the boots to

give," said old Joe as he took another chew.

A Scumble Landlord.—An exchange says:

The Use of a Bath.

Julius, a Western dandy, having landed at Chicago, saw an advertisement notifying those who wished to be clean that they might get a good bath for a quarter, thought it would be a good idea to ask the use of them of another dandy, who said: "Baths are used by the white folks to wash in." Accordingly Julius, being with a bundle under his arm, and started down into a bath-room was left to his ablutions.

Considerable time elapsed, and Julius did not come forth; and, after waiting for about an hour the keeper of the baths went to the door and screamed out:

"Yes, darkey, are you coming out?"

"Yes, as soon as I get my hair washed."

"How long will that be?"

"Plase an hour to an hour an' a half," coolly answered Julius.

With that the man burst into the room, and there, all around the room was the dandy's freshly washed clothing hanging up to dry, but not noticing it just then, remarked: "Now, you must clean out once, you've been in over two hours."

"Look a here," said Julius in an enraged manner pointing to his drying clothes, which rather took the bathing man down. "I'd like to see you wash and hang out two dozen pieces in less time than I've been at it!"

In another minute Julius was landed in the street, surrounded by his washing.

Can You Eat Crow?

Late Malaprop was at one season so much lowered, or rather the hotels in the immediate vicinity were, that the firm-house were filled with visitors. One of the worthy farmers residing there was especially worried to death by the birds. They found fault with his table—this thing was bad, and that wasn't fit to eat!

"Darn it," said old Isaac one day, "what a fuss you are making; I can eat anything."

"Can you eat crow?" said one of his young boarders.

"Yes, I kin eat crow."

"Bet you a hat," said his guest.

The bet was made, a crow was caught and nicely roasted; but before serving up, they contrived to season it with a good dose of pepper.

"I can eat down to the crow. He took a good bite and began to chew away."

"To be sure I can eat crow." Another bit—an awful taste. "Yes, kin eat—crows—(sneezing of nausea)—I kin eat—crows; but I'll be damned if I haiker arter it!"

Dear Isaac came from the crow feast in somewhat of a hurry and bolted toward the back of the house!

The Story of an Ambition.

When Jones was sixteen he was bent on one day being President.

At twenty-five Jones thought he content as District Judge would be.

At thirty he was much elated.

When Mayor of Frogtown nominated.

But bootless all the nomination.

His rival Tompkins grazed the station.

At forty-five his dreams had fled—Hope and ambition both were dead.

When from his tomb he found release, He died a Justice of the Peace.

O youthful heart, so high and bold, Thus is thy brief, sad story told!

Dorcas Jones has always been remarkable

for his meekness and uniform piety of conduct. On the occasion of a "military muster" the spirit of the day produced such an influence on the worthy deacon, that it attracted the attention of the pastor and some of his brethren. The pastor expressed his astonishment and asked the cause:

"Why, pastor," replied the deacon, "you see I've been constantly in and out of season, serving the Lord for the last twenty years, and I thought that, just for once, I'd take a day to myself."

Going to Heaven via Arkansas.—"Where are

you going?" said a young gentleman to an elderly one in a white cravat, whom he overtook a few miles from Little Rock, Arkansas.

"I am going to Heaven, my son; I have been very good all my life."

"Well, good bye, old fellow, if you have been traveling towards Heaven eighteen years and got no nearer to it than Arkansas, I'd take another route."

Good for Kettles.—A good old Dutchman

and his frow sat up till gazing time, when the latter, after a stretchy said:

"I wish I was in Heaven."

Hans also yawned and replied:

"I wish I was in the still house, as she exclaimed, 'I pe pound for you; you always wish to be in the best place.'"

A Too Commemorative Child.—"Sonny, do

you love me any?"

"Oh! don't I though?"

"What for?"

"Because you always bring me candy when you come to see Sissey Jane. Give me some more."

"And what does she love me for?"

"O, 'cause you take her to concerts, and give her so many nice things." She says so long as you are fool enough to bring her shawls and bonnets, she won't seek you no how—now give me some more candy."

"Do you know what the people in

Lynchburg do when it rains?" asked a freight boat captain of a farmer.

"No, I do not—do you?"

"Why, yes—they let it rain."

A young man in conversation one

evening chanced to remark, "I am no prophet!"

"True," replied a lady present, "no profit to yourself or to any one else."

"What is the difference between an elephant and a tree?" a true leaves in the spring, an elephant leaves whenever the menagerie does.

The commission given to Gov. Cod-

dington, by Cromwell, in the year 1650, has recently been found in Rhode Island.

A lap-dog, of the King Charles species,

was sold at auction in London, not long ago, for \$1,500.

A young man who has recently taken a wife, said he did not find it half so hard to get married as he did afterwards to get the furniture.

Should Seed Wheat be Brought from the South or the North?

EDM. GENESEE FARMER.—I perceive from the remarks of N. S. N., in July number of the Farmer, that the mooted question of "Whether wheat for early ripening should be brought from the North or South," is yet unsettled.

Near the city of Edinburgh, in Scotland, is a tract of land cultivated by intelligent, scientific farmers. These practical men, every two or three years, import their seed wheat from the London market, three or four hundred miles south of them, and it pays well, as they gain two weeks or more in their cool, dripping climate—where I recollect the papers stating, one wet season, they had not begun to gather their oats yet in December.

For corn, the very reverse of this should be the rule. If it is important to have corn to ripen early, bring it from the North, where it must mature early or be caught by the frosts. I have raised corn from seed from the rich Miami bottoms near Cincinnati; it grew large and very promising, but its habit of late ripening exposed it to frost in the last of September, and but few sound ears could be found in a ten-acre field.

Mansfield, O. C. F.

Dr. Mott's
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in H. Hydrogen. Sanctioned by the highest Medical Authorities, sold in Europe and the United States, and prescribed in their practice.

The experiences of thousands daily prove that no preparation of Iron can be compared with this. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Indigestion, Consumption, Scrofulous Tuberculosis, Salt Rheum, Menses irregular, Whites, Chlorosis, Liver Complaints, Chronic Rheudacia, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no depriving medicine could equal.

would render credible, I could so have been taken for granted as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very striking instances of this kind are attested of females. Such cases are not infrequently accompanied by marasmus, sanguineous exhaustion, and irregular changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

IN NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of the mind is of great importance. It is not necessarily best, for, unlike the case in the healthy, a vigorously tonic, without being exciting, and without heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, with-

out over being a gastric purgative, or indicating a disagreeable sensation.

It is also a laxative property, among others, which makes it so useful in the treatment of permanent constipation. It is recommended by the physician, not so much as a remedy for *Piles*, upon which it also operates, to exert a distinct and specific action, by dispersing the local tendency which forms them.

In *Dysenteria*, innumerable as are its causes, a single box of these Chalybeate Pills has often succeeded in almost habitual cases, including the attendance of Colic.

In unchecked *Dysuria*, even when advanced to *Dysentery*, confirmed, emulating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pain, loss of flesh and strength, debilitating cough, and remittent hectic, which generally attend the above *Exostrophes*, this remedy has afforded the alleviation.

physicians, in several very gratifying and interesting instances.

IN SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iron, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

IN RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—this is an invariably well reported, both as a relieving and a restorative, of the swellings and stiffness of the joints and muscles.

IN INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. It is a perfect appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately to its use.

Put in a glass bottle metal boxes containing 10 pills, price 50 cents; or half dozen for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to

R. B. LUCAS & CO., General Agents,
Oct. 15, 1896. ly 20 Cedar St., N. Y.

Prof. L. Miller's

FOR RESTORING GRAY HAIR to its original color without dyeing, and preventing the hair from turning gray.

FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality or temporary energy remaining.

FOR PREVENTING ITCHING, DANDRUFF, and all cutaneous affections of the scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequalled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present

use. It cleanses the head and scalp from dandruff and other cutaneous diseases, causes the hair to grow luxuriantly, and gives it a healthy, glossy and flexible appearance, and also weakens the hair, and restores the vigor, will give strength and vigor to the roots, and restore the growth to those parts which have become bald, causing it to yield a fresh covering of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, and when all the preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the hair from turning gray until the latest period of life, and in cases where the hair has already become white, it will cause it to turn black again.

fill with certainty restore it to its original line, giving it a dark, glossy appearance. As a perfume for the toilet and a hair restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in dressing the hair, which, when moist with the perfume, can be easily smoothed down, and so fastened as to preserve its place, whether plain or curled—hence the great demand for it by the ladies as a standard toilet article which none ought to be without, as the price places it within the reach of all, being

ONE TWENTY-FIVE CENTS

per bottle, to be had at all respectable druggists and perfumers.

Dr. L. MILLER would call the attention of Parents and Guardians to the use of his Lavigator, in cases where the children's hair inclines

be weak. The use of it lays the foundation for a good head of hair, as it removes any impurities in the scalp, and becomes connected with the scalp, the removal of which is necessary for the health of the child, and the future appearance of his hair.

CAUTION.—None genuine without the facsimile of LOUIS MILLER being on the outer wrapper; also, L. MILLER'S HAIR INVIGORATOR is blown in the glass.

Wholesale Dealers, 56 Bay St., and sold by all the principal Merchants and Druggists throughout the world.

Liberal discount to purchasers by the quantity.

Also I also desire to present to the American public my New **AS IMPROVED INSTANTANEOUS** **HAIR INVIGORATOR**, which after years of scientific experimenting I have perfected. It cures Baldness, Black or Brown Itch, and restores lost hair.

ry to the Hair or Skin—warranted the best title of the kind in existence. PRICE, ONLY 25 CENTS. Depot, 56 Dey Street, New York. Oct. 28, 1860. 17

Removals.

NOT understood, being the authorized persons to make removals into Ever Green Cemetery, hopes that such as contemplate the removal the remains of deceased relatives or friends, will avail themselves of this season of the year to verify the same. Removals made with promptness and to the best advantage, and no effort spared to please.

Dr. Williams' Pink Pills for Pale People

Gin as a Remedial Agent.
THIS DELICIOUS TONIC STIMULANT, especially designed for the use of the Medical Profession and the Family, having superceded all other so-called "Gins," is now prepared by all the prominent physicians, chemists and druggists, and is the only one of these medicinal qualities (tonic and diuretic) which belong to an OLD and PURE Gin. Put up in quart bottles and sold by all druggists, grocers, etc.

Quick Sales & Small Profits.
HAYING purchased a large and varied assortment of FALL AND WINTER GOODS, and are prepared to offer bargains to all who may favor us with a call. We will not attempt to participate, as our stock comprises Foreign and Domestic Dry Goods, Fancy Articles, etc., and we are determined to sell as cheap as the market. Thankful for the liberal encouragement heretofore extended to us, we would respectfully ask a continuance of the same.

Handsome Women.
THE LADIES—HUNT'S "BLOOM OF ROSES." A rich and elegant color for the cheeks or lips. It will NOT WASH OR RUB OFF, and once applied, remains durable for years. The tint is rich and natural, that the closest scrutiny fails to detect its use. Can be removed by lemon juice and will not injure the skin. This is a new preparation, used by the celebrated Court Beauties of London and Paris. Mailed free, in bottles, with full directions for use, for \$1.00.

HUNT'S "COURT TOILET POWDER." imparts a dazzling whiteness to the complexion, and is unlike anything else used for this purpose. Mailed free for 50 cents.

HUNT'S "BRITISH BALM." removes tan, freckles, and all eruptions of the skin. Mailed free for 50 cents.

HUNT'S "IMPERIAL POMADE" for the hair, strengthens and improves its growth, keeps it from falling off, and is warranted to make your hair curl. Mailed free for \$1.00.

HUNT'S "ESSENCE OF STANGE" is a double extract of orange blossoms and stange. It is a perfume of the highest quality. The perfume was first used by the Princess Royal of England, on her marriage. Messrs. Hunt & Co. presented the perfume with an elegant case of Perfumery, (in which all of the above articles were included) in handsome cut glass bottles, valued at \$15.00, particularly of which we offer to the public gratis.

All the above articles sent Free, by express, for \$3.00. Cash can accompany the order, or be paid to the express agent on delivery of goods.

A Good Home.

ROSSGARDEN, Pa. SALE—A FARM, containing 100 acres, situated in a beautiful township, Adams county, adjoining the property well known as the "Orr Farm," about one-half of this farm is of same quality as Orr's land. The meadows are large and good soil can be made to produce very large crops of Hay, Corn, etc. There is a constant good market, about 90 acres are in timber, much of it of the best kinds, including Locust and Walnut. It is supposed the most valuable property in the county is on this property, and within a mile of a good water-mill. A young Apple Orchard, containing 200 trees of choice selected fruit, planted 2 or 3 years ago. A young Peach Orchard of 100 trees of best kinds selected. These Orchards, when in full bearing, will add greatly to the value of the property, as the quality of Adams county fruit is known and held in great esteem in the cities. Numerous Springs on the farm, one of which is a large Sulphur Spring, that may become of great value as soon as the Gettysburg and Chambersburg Railroads are finished, and property is within one mile of the Baltimore and Potomac Railroad, and the supply of Franklin county lime may be had cheaply, so as to improve the land to any degree of fertility desired. — This is a HOUSE and good substantial Barn on the farm.

Also, 2 TRACTS OF MOUNTAIN LAND, same township, adjoining lands of T. Stevens, and others, containing about 35 Acres.

The property will be shown to any person wishing to purchase and the price made known on application to Isaac Robinson, Esq., Fairfield; Robert G. McGraw, George W. McGraw, Esq., and Col. James D. Patton, Gettysburg. **ISAAC R. BENTLEY.**

Valuable Farm for Sale.
THE subscriber offers for sale, on very accommodating terms, TWO FARMS.

No. 1, situated in Strasburg township, Adams county, containing 110 Acres, more or less, the improvements on which are a STONE HOUSE, good Bank Barn, and other out-buildings. — About 15 Acres are in Meadow, and there is running spring in a large field, which never fails. There is a large Orchard of choice fruit, about 4 acres. About 2700 or 2800 bushels of Line have been put upon the farm, and its convenience to the Railroad renders it very accessible. There is a due proportion of Timber.

No. 2, situated in Chambersburg township, on the Chambersburg and Gettysburg Railroad, containing 145 Acres, more or less, the improvements on which are a FRAME DWELLING HOUSE, large Brick Barn, and other out-buildings; a well of water at the barn, and one at the house. About 22 acres are in Meadow, and there is a due proportion of Timber. About 3,000 bushels of Line have been put upon the farm.

The terms will be made known on application to the subscriber.

PETER TROSTLE.
Sept. 2, 1880. 1f

Farm for Sale.
THE subscriber will sell his FARM, situated in Franklin township, Adams county, 2 miles west of Cashtown, on the Millerstown Road. The farm contains 15 ACRES—50 acres clear. The land is in a good state of cultivation, having been tilled. There are a number of fruit trees, including Apples, Peaches, and other kinds of the best kinds. The buildings are a one and a half story STONE HOUSE, a large new Bank Barn, a Cooper Shop, etc. The farm is in good order, and cannot be sold for less than \$10,000, including the five hundred bushels of Potatoes. A never-failing spring of water at the door.

SAMUEL BINGAMAN.
Oct. 1, 1880.

Domestic Tickings, Checks, Flannels, &c., cheap at Falmers'. We have a MUSLIN branded with our own name, to which we invite special attention, as it exceeds by far any ever offered in this market for the price.

Cancer Institute.
AFTER many years of successful practice, DR. KELLING still desires to do good to the afflicted. He continues to cure all kinds of CANCERS, TUMORS, WENS, SCIRRHUS, or TUBERCLES, ETC., if curable, without cutting or amputation. He has cured himself merely to the cure of the above diseases, but will treat all others with success. Patients will be visited, if desired, at a reasonable distance. Persons desiring to visit Dr. K. will please stop at the Railroad Hotel in Mechanicsburg, where Dr. K. has his office, and call on him. For all particular, write to—State of New York, enclosing a postage stamp to prepay answer. Address Dr. C. L. KELLING, Mechanicsburg, Cumberland co., Pa.

Fall and Winter Goods.
THE subscriber, having just returned from the Eastern Cities with a large and splendid assortment of HATS and CAPS, would respectfully call the attention of purchasers to this stock. The Hats are full and complete, consisting of all the latest styles, and handsome No. 1 Silk Hats, Dress Hats, Soft Hats, high, low and medium depth of crown, Cloth and Glazed Caps, Plush and Plush trimmed Caps, for men and boys, Fancy Hats and Caps for Children, together with a good assortment of Winter Hats, all of which will be sold at very low prices for cash. Also, a fine assortment of Ladies' and Misses' Black and Brown Velvet Hats, Felt Hats, etc.

R. F. McILHENRY.
Oct. 22, 1880.

Norbeck & Martin.
HAVE just received from the city the largest stock of GROCERIES they have ever offered to the public—Sugars, Syrup, Coffee, Tea, Rice, Cheese, Fish, Salt, Spices, &c., embracing all varieties, at all prices, the lowest the market will afford. — Also Brooms, Brushes, and Stationery, Tar, Oil, Castles, &c., and everything to be found in a first class Grocery and Variety Store.

The Flour and Feed business is continued with a steady increase. The highest market prices paid and the smallest profits asked. The public are invited to give us a call and see for themselves.

ALL COME! No trouble to show Goods. Oct. 29, 1880.

A Novelty
IN THE ART WORLD! PHOTOGRAPHY UPON PORCELAIN—Secured by letters patent in the United States, England, France and Belgium.

THE AMERICAN PHOTOGRAPHIC PORCELAIN COMPANY, No. 781 Broadway, New York having secured their novel and ingenious invention by American Letters Patent, are fully prepared to execute all orders for MINIATURE LIKENESSES

of Persons on China, presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a fine color drawing, and a high degree of unimpaired quality of durability, by being rendered as imperishable as the natural properties of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of Photographs, not only on plain surfaces, but upon such as are curved and of an irregular shape, portraits can be reproduced with fidelity and accuracy, and delivery of delineation, upon Porcelain wares of any description and dimension used as articles of luxury or of household utility, such as

CHINA, VASES, BREAKFAST CUPS, Toilet Articles, &c., thereby securing faithful portraits and furnishing a unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the Fine Arts desiring to have their portraits on Porcelain, the Company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they sell at cost price.

As the American Company are owners of the patent right, and consequently the only persons authorized to use the process, they have determined, in order to afford people of every section of the Union an opportunity to possess

PORTRAITS ON CHINA, to make the following proposition to residents in the country, who are unable to visit personally the Atelier and other galleries in New York: Persons sending a photograph, ambrotype, or daguerrotype to the office of the Company in New York, accompanied by

1. A check, or order, for \$1.00, will receive in return by express, free of other charge, a richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerrotype and TEN DOLLARS, they will receive in like manner, a handsome Porcelain or China Plate, with the portrait reproduced by the patented process.

By sending a pair of daguerrotypes and FIFTEEN DOLLARS, they will receive in return a Pair of rich Sevres Vases, with the portraits executed on miniature paintings; and, in like manner, portraits may be reproduced on porcelain wares, of every quality of finish, ranging in price from Twenty to One Hundred Dollars in the pair.

N. B.—Be particular in writing the address, town, county and State distinctly. All letters to be addressed to "Manager, American Photographic Porcelain Co., 781 Broadway, New York." Oct. 22, 1880. 3m

Still at Work!
The undersigned respectfully informs his friends and the public that he is continuing the Coachmaking and Blacksmithing business in every branch at his establishment in Chambersburg street. Repairing and Blacksmithing of all kinds done at reasonable rates, promptly and to the satisfaction of customers.

Careless Provoked taken in exchange for work at market prices.

Persons desiring articles or work in the Coachmaking or Blacksmithing line, are respectfully invited to call on

JOHN L. HOLTZWORTH
Gettysburg, Jan. 24, '80.

The Election
IS over, and although every one can't have his wishes entirely satisfied, it becomes a duty to submit. The next important question is to all men, and particularly the people of Adams county, is where to buy the best and cheapest fall and winter clothing. We unhesitatingly say at A. SCOTT & SON'S, S. W. corner of the Diamond, in the old County Building, Gettysburg, Oct. 15, 1880.

Notice.
THE undersigned having retired from the Mercantile business, the same will hereafter be continued at the old stand in Baltimore street, by their sons, Henry R. Danner and Waybright Ziegler, under the name and style of Danner & Ziegler, Jrs., whom we will recommend to, and for whom we would bespeak a liberal share of patronage from old customers, and of the public in general.

Having retired from the Mercantile business it is necessary that our old business should be settled up. We, therefore, notify all those indebted to us either by Judgment, Note or Book Account, to call and settle the same without delay. The books will be found at the old stand.

DAVID ZIEGLER.

Globe Inn, MECHANICSTOWN, Frederick county, Md.—Having been renovated and re-furnished, the proprietors desire the public that a call is only needed, as heretofore, to be satisfied in every case. CHARGES MODERATE.

Henry H. Aysor's, FOR PURIFYING THE BLOOD.—And for the speedy cure of the various varieties of skin diseases: SCROFULA AND SCORFUS AFFECTIONS, SCORFUS TUBERCLES, SORES, ERIYTHRODERMIS, TUBERCLES, BLOTCHES, BUILDS, BLAINS, AND ALL SKIN DISEASES.

Oakland, Ind., 6th June, 1880. J. C. Ayer & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous affection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. New and old sores, and out on my head and neck, and covered my body and face with sores, which were painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to try the Sarsaparilla, and after taking a few bottles, I felt a great improvement. I had known for your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used about three bottles. Now and then I take a single bottle to keep the blood pure. I feel that I owe you a testimonial for the sea, which after a while got better. I am now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you that I feel that you are one of the apostles of the age, and remain ever grateful to you for the cure of my disease. I am, Sir, ANTHONY'S FIRE, ROSE OR ERYTHRODERMIS, TUBERCLES, SORES, ERIYTHRODERMIS, TUBERCLES, BLOTCHES, BUILDS, BLAINS, AND ALL SKIN DISEASES.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1880, that he has cured an instance of Erythema, which threatened to terminate in Erysipelas, by the use of your Sarsaparilla, and also a dangerous attack of Malignant Erysipelas by large doses of the same. Says he: "I cured the common Eruptions by it constantly."

BRONCHITIS, GOTTE REMAN SWELLED NECK, ZOLZHOFF'S, of New York, writes: "The cure of my disease, I owe to your Sarsaparilla, a blood-purifying medicine, which I had suffered from over two years."

LEUCORRHEA OR WHITES, OVARIAN TUMOR, UTERINE LIGERATION, FEMALE WEAKNESSES.

Dr. J. B. Clanning, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in Female Eruptions of the various kinds. I have cured many intricate cases of Erysipelas, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Morrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Erythra of Erysipelas. Our physician thought nothing but the trial of your Sarsaparilla as the last resort, and cutting, and it proved effectual. After taking your remedy eight weeks, no symptom of the disease remained."

RHEUMATISM, GOUT, LIVER COMPLAINT, ZOLZHOFF'S, of New York, writes: "I have cured many intricate cases of Erysipelas, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."
